*Health Education Today's* High School Health Curriculum:  
Aligned with **all** New Mexico's Health Education Content Standards, Benchmarks, and  
Performance Standards (Grades 9-12)

New Mexico Health Education Standards (6.29.6 NMAC, Grades 9-12): <https://www.srca.nm.gov/parts/title06/o6.029.0006.html>

**New Mexico Health Education Content Standards with Benchmarks and Performance Standards — Grades 9-12 (6.29.6.10 NMAC)::**

Content Standard 1: Students will comprehend concepts related to health promotion and disease prevention.

Content Standard 2: Students will demonstrate the ability to access valid health information and health-promoting products and services.

Content Standard 3: Students will demonstrate the ability to practice health-enhancing behaviors and reduce health risks.

Content Standard 4: Students will analyze the influence of culture, media, technology and other factors on health.

Content Standard 5: Students will demonstrate the ability to use interpersonal communication skills to enhance health.

Content Standard 6: Students will demonstrate the ability to use goal-setting and decision-making skills to enhance health.

Content Standard 7: Students will demonstrate the ability to advocate for personal, family, peer and community health.

*New Mexico's health education standards are codified at 6.29.6 NMAC (Standards for Excellence — Health Education), effective June 30, 2009; the content standards were adopted in 1997 and the benchmarks and performance standards were revised in June 2007, and the rule remains New Mexico's current adopted standard for grades 9-12. In addition, 6.29.6.11 NMAC requires each school district or charter school to implement a policy allowing parents to request that their child be exempted from the parts of the health education curriculum that address the sexuality performance standards.*
