Health Education Today's High School Health Curriculum:
Aligned with **all** New York State Learning Standards for Health Education (Commencement Level)

New York State Learning Standards for Health, Physical Education, and Family and Consumer Sciences: <https://www.nysed.gov/sites/default/files/programs/standards-instruction/healthpefacsllearningstandards.pdf>

New York State Health Education Commencement (High School) Standards:

Standard 1: Personal Health and Fitness — Students will have the necessary knowledge and skills to establish and maintain physical fitness, participate in physical activity, and maintain personal health.

Standard 2: A Safe and Healthy Environment — Students will acquire the knowledge and ability necessary to create and maintain a safe and healthy environment.

Standard 3: Resource Management — Students will understand and be able to manage their personal and community resources.

New York State Learning Standards Content Strands:

Health Education, Physical Education, Family and Consumer Sciences (this alignment addresses the Health Education strand at the Commencement level)

The Learning Standards for Health, Physical Education, and Family and Consumer Sciences were adopted in 1996 by the New York State Board of Regents and remain the currently adopted New York State health education standards. Each standard is elaborated through key ideas (numbered) and performance indicators (bulleted); this document aligns each Commencement-level Health Education performance indicator to the HET High School Health Curriculum.
