Health Education Today's High School Health Curriculum:
Aligned with **all** the South Dakota Health Education Standards (Grades 9-12, 2026)

South Dakota Health Education Standards (2026): <https://doe.sd.gov/contentstandards/documents/26-HealthEdStandards.pdf>

South Dakota Health Education Standards (2026) — Grades 9-12::

Standard 1: Students will comprehend concepts related to health promotion and disease prevention to enhance health.

Standard 2: Students will analyze the influence of family, peers, culture, media, technology and other factors on health behaviors.

Standard 3: Students will demonstrate the ability to access valid health information about products and services that enhance health.

Standard 4: Students will demonstrate interpersonal-communication skills to enhance health and avoid or reduce health risk.

Standard 5: Students will demonstrate decision-making skills to enhance health.

Standard 6: Students will demonstrate goal-setting skills to enhance health.

Standard 7: Students will demonstrate health-enhancing behaviors and avoid or reduce health risk.

Standard 8: Students will demonstrate the ability to advocate for personal, family and community health.

The South Dakota Health Education Standards were adopted May 4, 2026 by the South Dakota Board of Education Standards, superseding the 2018 standards. The 2026 standards are a skills-based framework modeled on the National Health Education Standards; health content-area selection is left to local education agencies. Alignment below covers the complete Grades 9-12 performance indicators (44 indicators across the eight standards).
